Digital Operational Resilience Act ("DORA"): concrete impacts and road to compliance

GOALS

The European Commission has introduced DORA (Digital Operational Resilience Act) to harmonise the EU's currently fragmented regulatory landscape regarding digital operational resilience testing and the oversight of critical ICT third-party service providers.

To help you find your way through the requirements imposed by DORA, the speaker will present a very concrete and pragmatic "road to compliance".

The objective of the training is:

- to leave with a detailed overview of the provisions of DORA;
- to understand the impacts of DORA on your institution;
- to leave with a very concrete and step-by-step road to compliance.

METHODOLOGY

You follow a **'Live webinar'** digitally in a group. It is 'learning-apart-together'. At an agreed time, the teacher and participants log in to a video conference tool, each from his or her own location and with his or her own computer. Via this tool's camera, microphone and chat function, there is an opportunity for interaction and feedback, both from the participants to the teacher and vice versa. The teaching material consists as a basis of a presentation via the MyFA learning platform, supplemented with various other items (such as digital syllabus, presentation, audiovisual fragments, etc.).

Training material

- PowerPoint presentation (slides);
- Live Video.
