

## Electronic Invoicing with Peppol and emerging payment schemes

### GOALS

---

Welcome to our comprehensive training ‘Electronic Invoicing with Peppol and emerging payment schemes’, where we explore the intricate world of financial and legal intricacies, equipping you with essential skills for the evolving landscape. Uncover legal complexities, including invoice content, privacy, VAT, and changing B2G/B2B obligations. Delve into Peppol's realm, understanding the 4 corner model, processes, document types, and its impact on the business ecosystem. Explore the dynamic interactions between financial transactions and banking products, covering SCT, SDD, R2P, Tokenization, Card Issuing, and Interchange. Identify stakeholders and solutions, gaining insights into the industry's interconnected web. Discover opportunities like factoring, improved credit scoring, and mobile banking app integration.

Join us for a day of immersive learning, where theory meets practice, and where you leave equipped with the knowledge and tools to elevate the effectiveness of your role.

By the end of the training, you will be able to:

- develop a comprehensive understanding of Electronic Business Transactions and Financial Interactions in organizational contexts;
- develop a comprehensive knowledge of Peppol's 4 corner model, processes, document types, and its broader impact on the business ecosystem;
- acquire proficiency in the dynamic interactions between financial transactions and banking products;
- identify key stakeholders and solutions within the industry's interconnected web, offering participants valuable insights through case studies and practical examples.

## METHODOLOGY

---

You follow a **‘Classroom training’** face-to-face in a group. You, the other participants and the teacher are all present in the same classroom at an agreed time. There is an opportunity for interaction and feedback, both from the participants to the teacher and vice versa.

The teaching material consists as a basis of a presentation via the MyFA learning platform, supplemented with various other items (such as digital syllabus, presentation, audiovisual fragments, etc.).

**Training material:** PowerPoint presentation (slides).
