

## What's new within IFRS? An update on the recent developments

### GOALS

---

The objective of this half-day training is to update the participants on the latest developments within IFRS.

Those that thought that the IASB would take it easy after having finalised the Big4, were clearly wrong.

Several important new projects have in the meantime been initiated (primary financial statements, goodwill and impairment, dynamic risk management, rate regulated activities...) while at the same time several post-implementation reviews were started or are about to get started (Consolidation package, IFRS 9, IFRS 15,...).

Financial reporting and IFRS remain a work in progress. For those involved, it is a necessity to stay informed.

### SUMMARY

---

**Category:**

- Accountancy & reporting

**Difficulty level:**

Expert

**Certification type:**

Live webinar

**Price:**

- Member: € 345.00
- Non member: € 380.00

### PRACTICAL INFORMATION

- **Duration:** ½ day of training (3 class hours)
- **Hours:** 09:00 to 12:30
- **Location:** This training will be given online.
- **Language:** This training will be given in English
- **Additional information:** How do you start the webinar? You will receive a login and password by email to access our platform. In the platform you will find a link. By clicking on the scheduled date the webinar will start via Webex. In order to receive training points, it is important to enter your own name and surname in Webex, follow the entire training day and answer the questions suggested by the trainer. Do not follow the training with several people on the same PC.

## METHODOLOGY

---

You follow a **'Live webinar'** digitally in a group. It is 'learning-apart-together'. At an agreed time, the teacher and participants log in to a video conference tool, each from his or her own location and with his or her own computer. Via this tool's camera, microphone and chat function, there is an opportunity for interaction and feedback, both from the participants to the teacher and vice versa. The teaching material consists as a basis of a presentation via the MyFA learning platform, supplemented with various other items (such as digital syllabus, presentation, audiovisual fragments, etc.).
